

DAZZ.

The Remediation Cloud

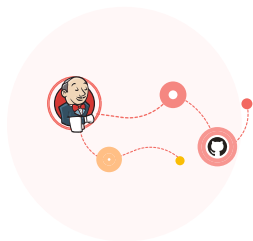

Fix at the root. Go fast.

Cloud security is broken

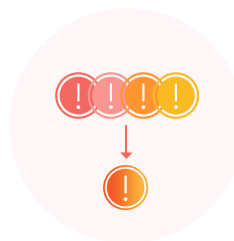

You're developing software in a big way — and finding more security issues than ever. Alerts are off the charts, and fixing vulnerabilities and misconfigurations is slow and manual.

Remediate the right way

Fix problems at their source with the Dazz Remediation Cloud

- 1 Discover**
See your CI/CD pipelines, code-to-cloud.

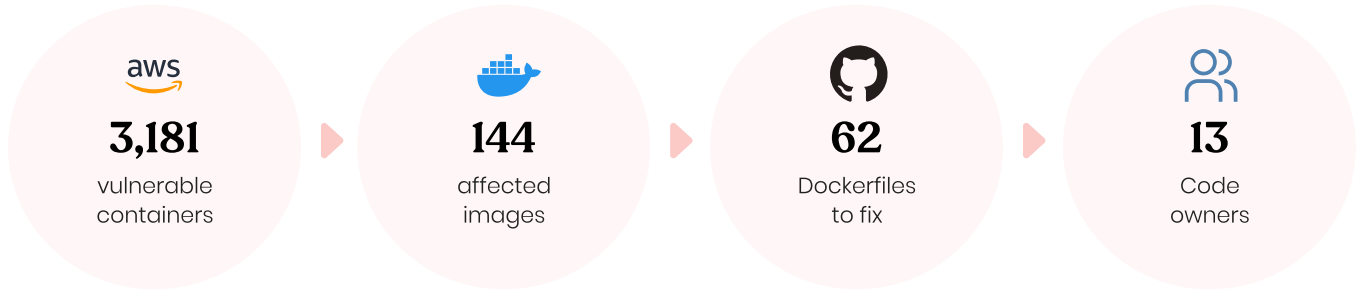

- 2 Reduce**
Cut alerts to their root causes and find code owners.

- 3 Fix**
Deliver code fixes right in your developers' workspace.

DAZZ.

Cut down complexity. Remediate at scale.

Accelerate your team

10:1
shrink alert queue

93%
reduce MTTR

Gain full pipeline visibility
